50 Best Debate Topics for Students (updated 2019)

Canadian Psychology, 54 1 , 62-71.

Research on Getting Along Across Differences: An...

First, the phenomenal character of an experience has something to do with its presented objects: experience is, in its character, a presentation of, or as of, ordinary objects; and second the character of perceptual experience involves the presentation of ordinary objects as present or there in that it is immediately responsive to the character of its objects.

Geographical perception

Collective self- esteem consequences of outgroup derogation when a valued social identity is on trial. This study is a practical project of field study type.

Perception and Phenomenology

Superordinate goals and intergroup behaviour: The effects of role ambiguity and status on intergroup attitudes and task performance. .
