## About

Debris and landslides blocked shipping lanes, ferry docks were inundated, and wave erosion damaged several roadways. The second constraint is regulatory. The Federal Railroad Administration FRA established Federal safety requirements for railroad bridges in 2010 under 49 CFR Part 237.

## Adapting Vermont's Transportation Infrastructure to the Future Impacts of Climate Change

Substantial snowmelt combined with record-breaking spring rainfall raised Lake Champlain 3. If you have any questions, please contact , the VTrans Rail Bridge Management Engineer.

major non-highway transportation modes including state-owned rail lines, nine stateowned airports, and public transit providers.

## Adapting Vermont's Transportation Infrastructure to the Future Impacts of Climate Change

Vermont has an extensive multimodal transportation system. The program is responsible for collecting and maintaining an inventory of rail bridges, their condition, and making recommendations on repairs, strengthening or replacement of components or entire structures. The section also briefly reviews scientific uncertainties, and economic and political barriers to adaptation.

## Bridge Management

The controversy over FEMA reimbursements for culverts in Vermont after Irene is discussed in.
