Studies in African Linguistics

The timing of f0 events was sensitive to the duration of segments in the CVC interval centered on the high-toned syllable, including non-moraic elements and consonants outside the syllable. The first syllable verb high tone assignment is lexical whereas the second syllable high tone assignment is grammatical. They learned the pattern and generalised it to word-final utterance-medial position, confirming that learners are biased toward word-based distributional patterns.

Kinyarwanda

Some Bantu languages such as Kiswahili don't have it. It has one liquid r which is written as l in some loan-words as was pointed out earlier.

OLAC resources in and about the Kinyarwanda language

Thanks to Gilbert for all his help! The third section, both African and non-African, referred to in the various articles. Derivation is productive with the preprefix which creates new words which are either metaphorically or metonymically related to the original noun as shown by the stem -ntu in the following examples.
