TNF1 Workshop

Proceedings of the 7th IFAC Symposium on Intelligent Autonomous Vehicles. It is important to say that the possibility to modify the artificial gravity level by modifying and controlling the tether length, unavoidably induces disturbing accelerations effects due to a quite complex orbital transient dynamics. As the see of St Ambrose and at a later period of St Carlo Borromeo it twice took the lead in ecclesiastical reform; sometimes the asserter of liberty, sometimes the home of despotism, at one time enslaved and destroyed, at another wealthy and triumphant it represented in its own vicissitudes the varying fortunes of the Lombard plain.
