A Real Young Girl (1976)

Direct Observation of Fire-spreading by the Authors While driving past a smoky roadside fire on the Cape York Peninsula, QLD, Dick Eussen saw Black Kites swooping on prey amidst smoke and sparks, while others hopped about on the road in front of the fire as it burned itself out :Record 14.

Earth system impacts of the European arrival and Great Dying in the Americas after 1492

Experiments of nature, in which groups adapted to summer come into contact with groups adapted to winter as in a convention or a cruise ship with passengers from both Southern Hemisphere and Northern Hemisphere countries and are exposed to a seasonal pathogen such as influenza or an enterovirus , could be analyzed for differences in attack rate or clinical severity. They drew straws to determine their roles — learner or teacher — although this was fixed and the confederate was always the learner.

Couchee

In recent years, seasonal changes in immunologic features have been documented.
