### Street Life in London

Miss A Hughes in 'A Professor's Love Story'. I was also one of the finalist of the Women Street photographer's festival in New York in December 2019.

### London Photos: London life in images by Kim Gilmour

The layer of grime was protective if you washed it off you opened yourself to the humours, By the time these pictures were taken people maybe bathed every year or so, if that. Here a newsagent has found a novel way of continuing business using a shipping container: But there were large areas of the Isle of Dogs where businesses had closed down for good: Much of the old industrial and dock areas of the Isle of Dogs were a wasteland with the redevelopment of Canary Wharf, housing and riverside apartments yet to come. The authors felt at the time that the images lent authenticity to the text, and their book is now regarded as a key work in the history of documentary photography.

### Street Life in London in 1877

Really enjoyed your photographs, very evocative of a certain time and place. Published copy of volume 1 of Street Life in London Sampson Low, Marston, Searle and Rivington, London, 1877 by John Thomson and Adolphe Smith.

### London

I have a deep passion for cities in general and more particularly for London, its bright colours and its people. John Thomson John Thomson was a talented and influential photographer, who had spent ten years travelling in, and taking photographs of, the Far East.
