

Economic evaluation of health services - report from an April 1988 workshop

Australian Govt. Pub. Service - Publications

CHEERS Checklist - Items to include when reporting economic evaluations of health interventions (2)

Section/Item	Item No.	Recommendation
Discount Rate	9	Report the choice of discount rate(s) used for costs and outcomes and say why appropriate.
Choice of Health Outcomes	10	Describe what outcomes were used as the measures of benefit in the evaluation and their relevance for the type of analysis performed.
Measurement of Effectiveness	11a	Single Study-based Estimator: Describe fully the design features of the single effectiveness study and why the single study was a sufficient source of clinical effectiveness data.
	11b	Synthesised-based Estimator: Describe fully the methods used for identification of included studies and synthesis of clinical effectiveness data.
Measurement and Validation of Preference-Based Outcomes	12	If applicable, describe the population and methods used to elicit preferences for outcomes.
Estimating Resources and Costs	13a	Single Study-based Economic evaluation: Describe approaches used to estimate resource use associated with the alternative interventions. Describe primary or secondary research methods for valuing each resource item in terms of its unit cost. Describe any adjustments made to approximate to opportunity costs.
	13b	Model-based Economic Evaluation: Describe approaches and data sources used to estimate resource use associated with model health states. Describe primary or secondary research methods for valuing each resource item in terms of its unit cost. Describe any adjustments made to approximate to opportunity costs.

The assessment of the system's operational resources should not be done in isolation of the program or initiative that relies on the public health surveillance system. An important characteristic of CDC's Behavioral Risk Factor Surveillance System BRFSS is its flexibility 39. The evidence on whether and how patient—provider concordance contributes to health disparities is mixed.

Sediment technical resources for sediment cleanup

Am J Prev Med 1998;15 3S :38--45. J Public Health Management Practice 1996;2:4--10. NOTES: The mechanisms by which the social determinants of health operate differ with respect to the level.
