## Appliances

It is different from EU RoHS 2 in that the exemption list of China RoHS 2 is grouped based on the six hazardous substances, and most of them do not have expiration dates. You can also find all the replacement filters and parts you will need as well as water-storage systems that will help you ride out emergencies if your municipal water supply becomes contaminated. However, if a product covered by the catalogue is used as a component of another product out of the scope of the catalogue, the catalogue will be not applicable to the product component.

## Appliances

Although cooling items with gas may seem counterintuitive, propane-powered freezers and fridges actually operate more efficiently than their electrical counterparts. You'll find sizes ranging from small, portable units to 22-cubic-foot upright freezers.

## Catalogue and list of Edison electric light appliances and apparatus, sockets, switches, safety cut

Since 1955, when we began selling non-electrical items to our Amish friends and neighbors here in Ohio, we have developed a big inventory of hard-to-find appliances. The dust jacket for hard covers may not be included.

## Electrical Supplies, Electrical Equipment & Electrical Distributor

As for situations under which RoHS compliance is technically or economically not feasible, the exemption list which includes 39 exempt applications for the restriction of hazardous substances is also established for the above products. Very minimal damage to the cover including scuff marks, but no holes or tears. It is the finished product which will define the applicability of the catalogue.

## Appliances

Call us toll-free or send us an email for helpful advice. But our expertise doesn't stop at stoves.
