## Preach

I'm starting to think I don't like Garth Ennis. He is the central figure of Christianity.

## About

Root had informed his superiors about the situation, so the crime was flagged.

## Urban Dictionary: Preacher

The opposition is provided by Jessie's less than lovely family, a Vatican hit squad, and also heaven and hell. I forget which series I read first - his Punisher MAX run I think followed by The Boys - but I do remember coming to Preacher very late in the game, despite being told it was his finest work to date.

## Preacher, Volume 1: Gone to Texas by Garth Ennis

If you've never read Garth Ennis before, this is a good place to start.

## About

The series was officially picked up on September 9, 2015 with a ten-episode order which premiered on May 22, 2016. Granted access to the

word of God, he can physically force people to do whatever he wants them to do, through the power of God. Sure there were some interesting moments and wannabe twists all of which Ennis telegraphed too obviously , but they were not enough to save this comic for me.
