### Pathfinders: The Golden Age of Arabic Science by Jim al

Among his 50 other inventions was the combination lock. Their design was so accurate that they have had only a few changes in a millennium.

### The Science and Inventions of the Islamic Golden Age

It produced notable figures in Islamic medicine, each of whom authored the most advanced medical treatises of the time, thus helping to chart a new course for medical theory and practice. The fact that Aristotle's works were recovered in the conquered Byzantine Empire, translated into Syriac and Arabic and then translated into Latin in Islamic Spain doesn't make Aristotle a Muslim.

### The Golden Age of Andalusian Science

The first person credited with building the astrolabe in the Islamic world is reportedly the 8th century mathematician Muhammad al-Fazari. High-rise noria : Some medieval Islamic compartmented water wheels could lift water as high as 30 meters.

### The Golden Age of Andalusian Science

Algebra was named after al-Khwarizmi's book, *Al-Jabr wa-al-Muqabalah*, much of whose contents are still in use. Not only that: virtually the entire Islamic Golden Age was engendered by the influence of Greek philosophy and science; as well as of Jewish and Christian theology, and Persian and Indian culture. Among them the most credited botanist was Ibn al-Baitar.

### How Islamic inventors changed the world

The demographics of medieval Islamic society varied in some significant aspects from other agricultural societies, including a decline in birth rates as well as a change in life expectancy. The Dark Ages of Europe, with underdeveloped technologies and science, were unfolding at the same time when the Muslim world was going through its Golden Age demonstrating outstanding achievements in a wide range of spheres of human activities.

### Islamic Golden Age

He boiled the berries to make the first coffee. Not only algebra, he also introduced Hindu-Arabic numerals whole numbers.
