Les Antiquités De Rome Poem by Joachim du Bellay

Cette approche repose sur trois principes de la pensée stoïcienne : le cosmopolitisme, le déterminisme et le libre arbitre. As a young man, he studied law in Poitiers, where he met Marc Antoine Muret and Jacques Peletier du Mans and began writing poems in Latin and in French. This is how, as the translator would like to believe, Du Bellay might have composed his poem if he were visiting Rome not, say, in 1554 but in 2009.

Les Antiquités de Rome by Joachim du Bellay

What pride, what ruin, what dusty blooms of reminiscent grandeur yet remain of she who tamed the world, and all in vain? Dans un premier temps, nous verrons que les ruines de Rome sont un objet de lamentation humaniste, dans un second temps, la ruine, un objet de méditation moraliste, puis pour finir la ruine, un objet poétique poète.

Commentary The poem that the translator visits and lives in for a time resembles, in a displaced but simulated fashion, the very city of Rome which Du Bellay peruses, envisions and reconstructs in his imagination. This does not change the fact that translation comes afterward, as afterword.
