Uganda

This paper looks at the socioeconomic impact of the Covid-19 pandemic in Uganda, and the impact on people living in poverty. With an average of 16 malaria deaths per day since the beginning of the pandemic in the country, many Ugandans have lost their lives due to a preventable disease augmented by some of the restrictive Covid-19 response measures.

Uganda GDP

Data limitations preclude adjusting for students who drop out during the final year of primary education. Comparatively, men dominate the more profitable sectors, such as manufacturing.
