Antimo Negri, Augusto Comte e l'Umanesimo positivistico

The simplest and most remote areas of knowledge—mechanical or physical—are the first to become scientific. In modern society, most people agree that the planets are physical objects made up of gas or rock.

Comte Index

People in this stage still believed in divine powers or gods, but they believed that these beings are more abstract and less directly involved in what happens on a daily basis.

Antimo Negri, Auguste Comte e l'Umanesimo positivistico

Reasoning helped man to find out some order in the natural world. Comte saw the results of his three-stage law and sociology as not only inevitable, but good.

Law of three stages

People worship inanimate objects like trees, stones, a piece of wood, volcanic eruptions, etc.

Antimo Negri, Auguste Comte e l'Umanesimo positivistico

The opening pages of Positive Philosophy emphasize, we must bear in mind that the different kinds of our knowledge have passed through the three stages of progress at different rates, and have not therefore arrived at the same time. Metaphysical thinking discards belief in a concrete God.
