UC San Diego Health is one of few sites in the U.

Gastrointestinal Oncology

Since we know that tobacco is linked to some types of gastrointestinal cancer, avoiding both is one of our best prevention defenses. Our multidisciplinary expert team of genetic counselors, nurse practitioners, and physicians will work together with you to create a personalized care plan.

Gastrointestinal Oncology Treatment in Michigan

This simplifies patient access for appointments and services, and provides patients with continuity from the initial visit through treatment and follow-up consultations. The Colon Cancer Genetics and Prevention Program provides comprehensive risk assessment, education, and screening for patients found to be at increased risk of colon cancer.
