An Open Textbook for “Mathematics for Elementary Teachers” courses

Tools like Lego, clay, and wooden blocks can all be used in the classroom to demonstrate how math ideas work. In it, a teacher dealt cards with division equations and unknown values.

XtraMath

I remember using them all throughout elementary school and even in high school when we would play games and keep score. However, states not following Common Core will not find the information intrusive in the text. The initial list I compiled contained over 40 websites but as I reviewed it deeper I decided to take some out and keep the rest here.
