Hunting the Elusive Novel Title

Come Sing, Jimmy Jo by Katherine Paterson

His voice and his guitar playing bring the songs to life, and make the audiences beg for more. I have never been to the Middle East, I've been to the Far East. Paterson is easily able to make us connect with the characters.

I have gotten really close to the characters in your story. How much does God and religion play into your writing? What inspired you to become an author? I will say, though, that the ending of this book wraps up the story beautiful. First, I scrolled through my Goodreads account and copied down fifteen titles that, to me, fit their stories well and were unusual enough to create interest.

Book Review: Lyddie

From the idea of a talented child asked to perform by his parents to that same child being thrust into a new life completely at odds to everything he knew.

Recorded Books

I think my favorite part, which was left out of the movie, is when Jesse's father comes to him at the creek and they talk about Leslie's death together. He stays with his grandmother, whom he loves dearly, while his parents, uncle, and grandfather travel as a traditional country band. I don't get a lot of writing done when I'm traveling around the world, but one thing that has been wonderful for me, has been the chance to get to know people around the world through children's books — people that I would otherwise never know.
