Reactions of heterocyclic azlactones.

University of Salford - Synthesis of heterocyclic compounds Research Papers

Description: -

- -Reactions of heterocyclic azlactones.
- -Reactions of heterocyclic azlactones.

Notes: PhD thesis, Chemistry.

This edition was published in 1967

Filesize: 46.64 MB

Tags: #Three #Distinct #Reactions #of #3,4

Three Distinct Reactions of 3,4

The intriguing and frustrating metalation chemistry, which involves equilibrium ring opening reactions is also updated from the time of the excellent review by Iddon B.

Cyclocondensation Reactions of Heterocyclic Carbonyl Compounds VIII, Heterocyclic Communications

ChemInform Abstract: Chemoselective N-Heterocyclic Carbene-Catalyzed Cascade of Enals with Nitroalkenes.

Chemistry of Heterocyclic Compounds, Oxazoles: Synthesis, Reactions, and Spectroscopy, Part A

Tetrahedron Letters 2013, 54 26, 3366-3370. In addition, the methylsulfanyl analogue of epothilone B ABJ879 and SNS-032 are under clinical trials Figure 1.

Cyclocondensation Reactions of Heterocyclic Carbonyl Compounds VIII, Heterocyclic Communications

Dithiocarbamates are efficient intermediates in synthetic organic chemistry. Organometallics 2012, 31 17, 6351-6364.
