THE ASSESSMENT OF ACCOUNTING SYSTEM ON ETHIOPIAN ELECTRIC POWER CORPORATION (A CASE STUDY AT JIMMA DISTRICT): Mikeleaks

Future responsibility is unclear; therefore, the responsibility of off-grid project implementation is not clear among various actors. The project aims to bring grid, mini-grid and off-grid electricity access to more than 250 towns and villages and provide such services as lighting for schools and clinics, benefiting a total population of about 1. This is a problem for most social institutions as they are publicly funded and need to go through lengthy, multi-level budget request procedures that may not be timely or even successful.
