Rural West Edinburgh Local Plan Chapter 5

More generally, the plan supports the increased self-containment of towns and villages beyond the Green Belt in terms of jobs and population. The Committee agreed to replace the subject local plan with a management strategy which could be prepared, agreed and reviewed regularly to allow management issues relating to the park to be addressed quickly. Their findings indicate that there is demand for the equivalent of over twenty nine-hole golf courses in the Edinburgh area.

Rural West Edinburgh Local Plan Chapter 1

A housing development of 80 dwellings on approximately seven hectares of the overall site is considered acceptable as a component of a scheme to restore the quarry. Alterations to existing buildings should have regard to the special character of the area, and appropriate traditional construction materials should be used. Proposals must be appropriate to the site's green belt location and include a public footpath link between Muir Wood Road and Bloomiehall Park.

Edinburgh City Local Plan Chapter 1

In particular, adequate provision should be made for publicly accessible land for informal recreational activities such as walking and children's play. In assessing the amenity value of a site, factors to be considered include its contribution to the character and landscape setting of the urban environment, whether it forms part of a corridor of linked open spaces, its contribution to other objectives such as tourism, and its role in environmental amelioration and the provision of other areas of amenity open space in the vicinity.

Rural West Edinburgh Local Plan Chapter 1

Control will be exercised to ensure that advertisements do not detract from the character of conservation areas nor from the appearance of the main approaches to the city. Agriculture is the dominant land use in the landscape and several areas of parkland also feature, some laid out as golf courses.
