#### **English Chinese Textile Dictionary**

Note 14: Mr Kwong was educated in Western Studies in Hong Kong and opened several pharmacists as pharmacists before going to Australia should engage in the medicinal materials business. No publication date, so estimate of 1977 is provided.

### **Mandarin Chinese**

Plague and infection are discussed together, and the infectious characteristics of epidemic diseases are clarified.

#### **Mandarin Chinese**

Available from: The study of epidemics was originally the patent of epidemiology, public health, anthropology, and archaeology. The process was carried out by missionaries, Chinese scholars, and officials in China, each adopting a different strategy. The name was still halfway between old and new, but the classification of infectious diseases had become clear.

### Langwen Ying Han shuang jie shang ye Ying yu ci dian = Longman English

Note 9: On the missionaries' study and study of dialects, see: Lee Siu Lun, History and current trends of teaching Cantonese as a foreign Language, Ph. D thesis, University of Leicester, 2004.
