## Level 3 Botany Diploma • Oxford Learning College

We may have learnt much about most individual plants but in the coming years they will be vital in teaching us about the ecology of the future 7. Plant pathology is vital to understanding disease as well as the potential problems caused by climate change.

### 3 Ways to Become a Botanist

Additionally, by being essential for the landscaping of city parks and public gardens, it also promotes recreational activities. Emphasis is placed on how the endosymbiosis theory ties algae together as a functional group.

#### Botany science projects & experiments

Our BookSleuth is specially designed for you.

#### **Botany**

Take stem measurements for 14 days. Examines fungal life histories, systematics, ecology, and genetics, as well as ethnomycology.

#### **Botany · Connecticut College**

Will knowing Spanish be important? Arguably, it is the dawn of the Neolithic Revolution some 12,000 years ago and even beyond that when humans sought to identify plants with healing properties, their growing seasons, those that could or could not be eaten, how to selectively breed them for hardiness or larger yields, fruits and vegetables have all been vital to our social development. Graduate at the top of your class so that you can attend a well-regarded college with a good reputation in the biological sciences and a good career placement rate.

# Botany and Plant Pathology, Purdue University

Joseph Spatafora, Department Head 2082 Cordley Hall Oregon State University Corvallis, OR 97331-2902 Phone: 541-737-3451 Email: Website: Faculty Professors Behrenfeld, Ciuffetti, Dolja, Fowler, Ingham, Johnson, Liston, McCune, Mundt, Pscheidt, Spatafora, Stone, Tyler,

Wolpert Associate Professors Chang, Goyer, Jaiswal, Jones, Megraw, Milligan, Ocamb, Parke, Santamaria Assistant Professors Anderson, Busby, Dung, Frost, Graff, Hagerty, Hardison, KC, LeBoldus, Luh, Naithani, Westberry Senior Instructor Putnam Instructors Curtis, Link-Perez, Smyth Courtesy Faculty Professors Gent, Grunwald, Loper, Martin, Rothwell, Stockey Associate Professors Hansen, Kentula, Mahaffee, Pyke, Stockwell, Zasada Assistant Professors Cronn, Grevstad, Kaye, Meinke, Reichman, Weiland Adjunct Faculty Professor Freitag BDS 211, USE AND ABUSE OF DATA: CRITICAL THINKING IN SCIENCE, 3 Credits Critically examine how data analysis can support legitimate conclusions from biological datasets and also how deceptive visualizations, misleading comparisons, and spurious reasoning can lead to false conclusions. Light shelfwear, rubbing to extremities, ink stamps to endpaper. Bacc Core Course Attributes: CPBS — Core, Pers, Biological Science Available via Ecampus BOT 313, PLANT STRUCTURE, 4 Credits The structural components of vascular plants and how plant structure relates to function, development, environment, evolution, and human use of plants.
