## Monthly Building Permit Summary :: City of Edmonton

To change or withdraw your consent choices for Investopedia. A building permit will specify that either an occupancy permit or a certificate of final inspection is required on completion of the building work. Text format will no longer be produced.

#### **Permits**

Areas that are prone to earthquakes might require all construction to be able to withstand a certain amount of tectonic activity.

# **Building Permits Survey**

The data available at the time of the annual release are at the U.

## **Building Permits Survey > Permits by State Annual**

In some instances, a building surveyor may refuse to issue a permit. The the Act and the Regulations state that all building work requires a building permit, unless an exemption exists under the Regulations. Use the forms below to do so.

#### **Building Permit Reports**

The building work may have been required to be inspected at one of the mandatory inspection stages and where works have continued, it is difficult to determine if the building work complies after it has been completed. Contact your local council for more information. View all impacts to City service on the City's.
