What is Gerontology: The Study of Aging

While primary care physicians—general internists and family physicians—care for most older people, geriatricians frequently provide the primary care for older adults who have the most complicated medical and social problems. Unlike geriatrics, which concentrates on the medical aspects of aging bodies and how they change and adjust to change in elder years, the field of gerontology has a multidisciplinary focus.

NYS Nursing: Nurse Practitioner Approved Protocol Texts

People with inflammatory arthritis like rheumatoid arthritis have a better quality of life if they are diagnosed early, receive treatment, and learn how to manage their condition. As the population in the United States continues to age, earning an could be a good investment in your future. Great condition for a used book! Processing time is typically 2-4 weeks.

Promoting Health for Older Adults

The New York State Board for Nursing categorized the protocols based on practice areas or population groups to make relevant protocols easier to locate. All trademarks are property of their respective trademark owners.

Adult

Elk Grove Village, IL: American Academy of Pediatrics.

Health Education Profession

The demand for professionals in such diverse fields as healthcare, urban planning and public policy legislation, adaptive living solutions, information technology and software development, fitness and wellness, non-profit community outreach and hospital-based organizations presents many career opportunities for the coming decades. For example, my elderly next-door neighbors, who are pretty independent, use their computers to place orders at the local pharmacy, order groceries from Amazon and more.
