Barry MacDonnell's Toolbox for WordPerfect for Windows

You can use the return value of the Time method to populate the myTime variable.

WinWorld: Library

Did it save you some time? With the first row highlighted, go to the Home tab and click Paragraph group. The easiest way to accomplish this is to declare two new string variables: myStrDate and myStrTime.

Working with macro libraries

You can use macros to perform repetitive or complex tasks automatically.

WinWorld: WordPerfect Library 2.0

TIP: Instead of using symbols 4,9 and 4,10 for guillemet marks, you can use symbols 12,171 and 12,187. Note: If the Install DOSDisk application prompts you to follow the instructions because it does not recognize your language version of WPDOS, see the. Note: The image in the Preview pane shows this layout with margins and gutters.

Reference: Using macros

If you want to run WPDOS 6. Optional: Converts just the item under the cursor or converts all items optionally pausing at each one for confirmation. In the Page Setup dialog, select the Paper tab, click Paper Size, then choose Custom from the drop-down list.
