Exact controllability of the wave equation with Neumann boundary control

American Institute of Mathematical Sciences 6th International Conference on Dynamical Systems, Differential Equations and Applications, Special Session on Dynamical Systems and Control in Biology; University of Poitiers, Poitiers, France, June 28, 2006. Funded Invited Talk 9th AIMS International Conference on Dynamical Systems, Differential Equations and Applications, Orlando, FL, July 4, 2012. He served in several organizational committees for these meetings and chaired some special sessions.

Distributional derivatives of functions of two variables of finite variation and their application to an impulsive hyperbolic equation

Numerical analysis, Lancaster 1984 Lancaster, 1984 , 140--179, Lecture Notes in Math. Ligęza: On distributional solutions of some systems of linear differential equations. Special Session on Mathematical Models in Biology 8th AIMS International Conference on Dynamical Systems, Differential Equations and Applications, at the Dresden University of Technology, Dresden, Germany, Special Session on Reaction-Diffusion Systems, May 28, 2010.
