Using Technology to Empower Students with Special Needs

Acknowledgment Content of this publication was developed from the 1992 Ph.

Use of Computer Technology To Help Students with Special Needs

Students are responsible for X-ing out of all apps open on a tablet when they are finished with the tablet. We work cooperatively within the medical and technology professions.

Accessibility for the Disabled: Computers and Software

For information about the lending program call 404-894-0541. Input Most individuals who are blind use standard keyboards, however, Braille input devices are available.

Technology Makes Life Easier for Kids with Special Needs

Every morning, I have one student turn all of the classroom computers on. Please understanding shipping may be slightly delayed from suppliers shortages or courier problems. Specific products, and approaches to using them, are described below.
